TAF

If you are a student in grades 5-12, please join alumni from Yale and Stanford for the 'Do You' Conference where you will learn real information to create your action plan to success following post-secondary education! You will be joined by leaders from the community who will partner and guide you in interactive exercises to gain the knowledge necessary to navigate your way to college.

Once again, we will be partnering with TAF (Technology Access Foundation) in a workshop style setting to:

- Learn strategies on post-secondary success
- How to write your unique story
- Collaborate with community members and learn key elements of securing mentors
- Leave with a clear action plan that you can immediately apply
