

Who we are

The Academy for EDvancement exists to create a public education system that develops the genius in every student, giving them the tools to be critical thinkers, problem solvers, ideators, and leaders.

Through high-quality and ongoing professional development, we work to ensure that every K-12 teacher has the support and guidance they need to become student-centered, equity-focused practitioners.

What we do

Summer Institute

Annual conference on instructional planning and the STEMbyTAF Model

CDI Support

Curriculum development training series and coaching

Leadership Track

Support with leading in a STEMbyTAF school and collaborative networking with teachers across districts and states

STEMbyTAF Consulting

Year-long professional learning and consulting program for school transformation

Vertical Course Catalog

Content-specific training for individual teachers and teams; micro-credentials available, including:

- Project-based learning
- Community engagement
- Edtech
- and more

Instructional Coach Training

Training in the STEMbyTAF Model for school-based instructional coaches

What our educators are saying

"I am empowered to teach my students to be agents of change, and help them understand that they can be who they are in their classroom, families, and communities. This is such a powerful way to be equitable and to do the work towards disrupting institutional racism."

-Teacher @ Beverly Park Elementary
